

2019-20 Curriculum Enrichment

Curriculum Enrichment is designed to support, extend, challenge, consolidate and deepen our taught curriculum offer. We hope that by providing these experiences we are enabling, and empowering, your children to 'see' further than the classroom or school and begin to make connections with the wider world.

Many of our enrichment offers will have 'challenge and aspiration' at their heart, as this is part of our desire in order to ensure we equip your children in 'learning for life'.
