Copperfield Academy Remote Learning – Home/School Partnership Agreement REAch2

The following points are necessary for remote learning to work successfully for pupils, parents/carers and school staff.

This agreement is in addition to all other school policies that remain in place throughout the duration of remote learning, as well as any other remote learning information shared.

School staff will:

- Give clear and easy-to-follow instructions, explaining how to access remote learning tasks
- Provide a suitable range of appropriate learning opportunities for the duration of time that any pupil cannot be in school due to self-isolation or local lockdown/s
- Give regular feedback to pupils and parents/carers to support pupils' learning and help them to make progress
- Where possible, make resources available to loan to pupils for them to use while learning at home, including laptops or other equipment
- Confirm in writing to parents/carers the expected date for pupils to return to school
- Record all live lessons, as well as upload pre-recorded lessons, to ensure equity in offer **and to safeguard** all parties

Parents and carers will:

- Read and follow the instructions given by staff to access remote learning
- Discuss the different learning tasks at home and encourage completion of all tasks that have been set
- Help to establish a routine that will promote good learning at home and prevent too much distraction
- Be respectful and appropriate where 'live lessons' are taking place remotely, including not interfering in lessons, and recognise that the class teacher is best placed to make choices about how lesson content is delivered, as would also be the case with lessons taught in the classroom
- Promptly raise any material concerns or issues with remote learning with the class teacher, in an appropriate and professional way
- Ensure that the school's resources, including laptops or other equipment that has been loaned, are being used safely and appropriately, and only for the purpose that they are intended, returning them in good condition at the end of remote learning (if required)

Pupils will:

- Follow our school codes of conduct – Learning Values and the 3Cs – consideration, communication, co-operation
- Try their best in all parts of their remote learning
- Ask for help with learning from an adult at school if it is needed – use @andtheireachersname on MST
- Use any school resources sensibly, including laptops or other equipment that has been loaned
- Talk to a parent, carer or an adult at school if anything is worrying them
